Portfolio

Objective

MCA graduate with hands-on experience building full-stack MERN applications and RESTful services. Strong foundation in backend development, authentication workflows, database management, and scalable application architecture. Seeking a Software Developer role to contribute efficient and reliable solutions.

Core Competencies

Full-Stack Development, REST API Design, Authentication Mechanisms, Database Management, Agile Development, Version Control, Debugging, Application Architecture

Internships

TechnoHacks Solutions Pvt. Ltd. Aug 2025 – Sep 2025
Full Stack Development Intern

- Contributed to feature development in production-ready MERN applications.
- Integrated frontend components with backend services and participated in deployment workflows.

Technical Hub, Aditya University Jun 2023 – Jul 2023
Project Intern (Full Stack Development)

- Collaborated in a 4-member agile team to develop scalable modules for the Scan2Ride system.
- Participated in requirement analysis, coding, testing, and integration phases.

Projects

Scan2Ride – Real-Time Bus Tracking System (MERN) GitHub
Developed a full-stack MERN application consisting of 90+ structured project files and 35+ reusable React components. Built authentication workflows including login functionality and protected routes. Structured modular frontend architecture supporting real-time bus tracking operations. Managed MongoDB collections for efficient student and transport data handling.

Sports Hub – Interactive Sports Platform (React) GitHub
Engineered a React Single Page Application with 100+ organized files and 30+ reusable components. Designed dynamic routing architecture for multiple sports categories. Implemented modular UI structure ensuring maintainability and scalability.

Education

Master of Computer Applications (MCA), JNTU Kakinada 2022 – 2024
CGPA: 7.0/10

Bachelor of Science (B.Sc.), Andhra University 2019 – 2022
75%

Certifications

- Information Technology Specialist – JavaScript (Certiport, Pearson VUE)
- Artificial Intelligence – Aditya College of Engineering & Technology (JNTUK)
- Azure & DevOps Workshop – Software Gurukulam
- JavaScript Intermediate – HackerRank
- Generative AI for All
- Java Concepts
- Introduction to Microsoft Excel
- Build a Website with WordPress
- Google Ads for Beginners
- Oracle Quiz Participation
- Wadhvani Foundation Program

Skills

Languages: Java, Python, JavaScript (ES6+), C++, SQL

Frontend: React.js, HTML5, CSS3, Bootstrap

Backend: Node.js, Express.js, REST APIs

Databases: MongoDB, MySQL

Tools & Concepts: Git, GitHub, Docker, Data Structures, Algorithms, OOPS, SDLC
